Personal Summary

Since 2000, I worked in several software development companies. Engagement, responsibility, creativity, technical and analytical knowledge and fluid communication with team members and client are values that characterize me.

Education

- Software Engineer. June 2004, at FASTA University of Mar del Plata.
- Software Analyst. August 1999 at FASTA University of Mar del Plata.
- Software Technical. April 1998 at FASTA University of Mar del Plata.

Professional Certifications

Microsoft Certified Professional. Exam 70-229: "Designing and Implementing Microsoft SQL Server 2000", in April 2002 (English language).

Other languages

English: high level, both oral and written

Skills

C#, ASP.NET (Web Forms, MVC & Web API), LINQ, HTML, CSS, JavaScript, Handlebars, JQuery, Angular, SQL Server, EF 5, WFC, Visual Studio, Scrum, Tortoise SVN, GIT.

Work Experience

Freelance NET Developer at Affordable Development

October 2012 - Present (4 years)

Functions / Responsibilities: Senior .NET developer in different projects.

Client: Gobet247

November 2014 - Now.

Objective: Maintaining, improving and adding new features to Gobet47 and LondonBetting production sites (both public and admin web sites)

Functions / Responsibilities: Full stack web programming. Coaching new developers in business logic and work methodology. Deploying web sites. Communication with the client to receive new features or issues and to inform him the advance of the tasks.

I worked in different modules of the system such as:

- Admin and public web site: modifications and new features programming client side scripts (jQuery / Javascript) and ASP.NET web pages.
- Improving performance (SQL or web pages).
- Developing new features depending where user is located for LondonBetting site.

Technologies used: C#, ASP.NET 4 (Web Forms), LINQ, JavaScript, JQuery, CSS, SQL Server 2014/2, EF 5, WFC, Visual Studio 2012

Website: <http://www.gobet247.com> - <http://www.londonbettingshop.com>

Client: Gobet247

January 2013 - October 2014.

Objective: Creation of the new web site for Gobet247

Functions / Responsibilities: Full stack programming on the public web site. Coaching new developers in business logic and work methodology.

I worked in different modules of the system:

- API: developing business logic methods that return JSON data implemented through REST WCF
- Public web site: receiving HTML/CSS templates from UI designer and creating dynamic pages or controls, programming JavaScript / JQuery client side scripts and AJAX calls to consume JSON data from API.

Technologies used: C#, ASP.NET 4 (Web Forms), LINQ, JavaScript, JQuery, Handlebars, CSS, SQL Server 2012, EF 5, WFC, Visual Studio 2012

Client: Shipping Quest

October - December 2012.

Objective: Creation of the new web site for Shipping Quest

Functions / Responsibilities: Full stack programming.

I worked 3 months in the new site web project for Shipping Quest. I programmed both controllers and views.

Technologies used: ASP MVC 4, ASP.NET Web API, LINQ, JavaScript, JQuery, CSS, SQL Server 2008R2, EF 5, Visual Studio 2012

Website: <http://www.shippingquest.com>

.NET Developer at Acriter S.A.

June 2011 - June 2013 (2 years 1 month)

Objective: Maintaining, improving and adding new features to Acriter's software products.

Functions / Responsibilities: Windows service, web application and web services developer in SWITCH ABI (Acriter Business Integrator) Project (<http://www.acriter-sa.com/entrada/ficha/64-switch-abi-acriter-business-integrator.html>).

I worked in different projects such as:

- Maintaining and developing new features of the admin web site for ABI transactional switch using ASP.NET 3.5
- Developing in the new admin web site for ABI transactional switch using ASP MVC 2.
- Developing in payment integration with First Data Corporation (<http://www.firstdata.com>) for CenPOS Client (<http://www.cenpos.com>)

Technologies used: C#, ASP.NET 3.5, MVC 2, JavaScript, JQuery, HTML, CSS, SQL Server 2005/2008R2, WFC, .NET Unit Testing, Visual Studio 2008/5
